## Terminology

In the first column you can see the element type

RAM - Study programme

UDD - Education part

STU - Curriculum

GRP - Group of Exam/Course activities

EKA - Exam activity

UVA - Course activity

The column "Pres./min" shows ECTS-points for Courses and Exams, expected duration for the education part, for groups either the sum of ECTS-points of the required activities or the total sum of ECTS-points required to pass the group.

The column "Remains" shows the difference between required and passed ECTS-points for not passed activities, groups and education parts.

The column "Term" shows the term when the activity was passed. S17 means Summer of 2017, V17-18 means Winter of 2017-18. "r" after the term means that the grade result was obtained at a re-exam.

The column "Marked" shows the grade obtained by the 7 point grade scale or which a result by the 13 point grade scale is converted to. If it is a converted result, the original result is shown in brackets. Then the ECTS grade result equal to the 7 point grade scale is shown also in brackets.

The column "Pass/total" shows the ECTS-points for the passed activities. For groups and education parts the sum of ECTS-points for the passed activities is shown.
